Legend: PD- Pass with Distinction CP- Condone Pass
CD- Condone Distinction P- Pass F- Fail FES- Failed
Exam Subm In NA - Not Applicable DNQ - Did Not Qualify
DO - YOU QUALIFY FOR A SUPPLEMENTARY EXAMINATION?
CR - PLEASE READ THE FOLLOWING CAREFULLY.

My Connect:

The final module result is a combination of both your CASS and Summative results. The mark and the mark code are important for you to understand your result****.

Home

Normally 50% (P) is required for you to pass a module***.

Calendar (0)

Normally a final result below 50% will be a Fail (F) unless a condoned pass (CP) has been given. If your result symbol is (SUP) that means that you achieved at least 30% in your first* examination/portfolio/practical and therefore that although you failed your first* examination/portfolio/practical you qualify to write the supplementary exam or resubmit your portfolio/practical.

Document Tracking

This supplementary examination or resubmission mark is capped at 50% and becomes your final module mark. That is it will replace your CASS mark and first examination/portfolio/practical mark and you will be awarded a maximum of 50% (P) for the module.

NOTES

* If you sit your exam for the first time in the third sitting, you normally do not qualify for a supplementary exam irrespective of meeting the subminimum (**) unless you qualify for a special /discontinuation exam. ** In order to qualify for a supplementary examination or resubmission you need to have achieved the subminimum requirement of 30% for all the examination/ portfolio/ practical in any undergraduate module. For any postgraduate module (normally NQF level 8 and above) you need to have achieved 40%. If you achieved less than 30%/40% you do not qualify for the supplementary examination or resubmission and your mark will be annotated with (FES). You will then fail the module.

**** Please talk to someone on the campus for clarity and more detail as there are several other important facts to take in to consideration that may influence the final mark. Please also look at the Assessment Strategy and Policy (IIE009) for details and exceptions.

EXCEPTIONS

Students studying in the distance mode may be exempt from the subminimum requirements. There are no subminimum requirements for short learning programmes (SLP).
