**Grade :** Grade 12-12 T

<b>Grade Head</b>	It has been an incredible journey watching this group of students grow and mature into the remarkable individuals they are today. As they approach the end of their high school careers, they can reflect on their achievements, friendships, and the challenges that have shaped them. They have shown resilience, creativity, and determination, qualities that will serve them well in their future endeavours. Each student has demonstrated their potential to achieve great things, and I eagerly anticipate their final results. This final stretch marks not the end, but the beginning of a new chapter in their lives. With hard work, authenticity, and a passion for learning, they are well-prepared for their Final Examinations.
<b>Principal</b>	The purpose of the Preliminary Examination is to prepare our matric students for the IEB final examinations. These examinations are intentionally rigorous to reflect the demands of the end-of-year IEB assessments. The matric students of 2024, our second cohort, have shown remarkable determination and resilience throughout their academic journey in High School. They are well-positioned for success in their final examinations.
